

PICSCAR

WGCV/IVOS Working Group on

Pseudo Invariant Calibration Sites Characterization

PICSCAR

Main objectives:

- Reactivate a working group to share experience acquired on PICS
- Update PICS characterization
- Redevelop a new PICS open website

Adopted approach:

- Questionnaire to have a better understanding of users needs
- Identification of the main areas of concern
- First focus on one site: exchange of data, exchange on calibration methods
- Set up calibration comparison exercises
